

## IT Staging, Configuration & Benchmarking Facility: 120 Wall Street

**Derive Technologies** state-of-the-art Information Technology Staging, Configuration and Benchmarking Center is strategically located in the heart of New York City, in Lower Manhattan, on Historic Wall Street.

- Derive's facility is directly within the proximity of major Healthcare, Financial Services, Government and Public Sector, and other Professional Services organizations in the NY/NJ Metro Area.
- We can receive all forms of IT equipment and software to a central location, pre-configure, benchmark and test, then rapidly deliver to local clients. (We can also configure, test and ship across the US/the globe from this location.)
- Derive's Professional Services consultants can be dispatched to support, and work hand-in-hand with, our clients' teams for onsite deployment.
- Additionally, our team offers remote, managed services - cloud hosting, monitoring, off-site management/software deployment, and more - from our facility.
